MAKE UP FOR POOL & SPA

## ABOUT US :

Hydro Plus Industries Pvt. Ltd. is the perfect destination, from where all buyers can get a number of products that help in making your life both enjoyable and stress-free. We have an exclusive range of Spa Bath Tubs, Shower Enclosures, Bath Tubs, Bath Tub Accessories, Whirlpool System, Steam Bath and Sauna Bath that is manufactured and supplied with an acute sense of responsibility and are best-swimming pool manufacturers in India.

## OUR PROCESS

### Get in touch with us

If you're thinking about investing in a pool for your home, give our friendly experts a call today. Alternatively, you can fill out our online inquiry form, and a member of our team will get in touch shortly to arrange a convenient time to visit and discuss your requirements in person.

### Free Site Survey

One of our site technicians will visit your location at a time convenient for you. During this appointment, we'll survey the installation site where you plan to install the pool, assessing the size and shape to determine the best possible pool style for your space. We'll also have a detailed conversation with you to understand your requirements and ensure we can accurately bring your vision to life.

### Construction begins – Client scope

Once you're completely satisfied with the design and quotation, the preparation and excavation work will be the client's responsibility. Depending on the size and complexity of your project, we will provide you with the layout plan for placing the pool. Once the site is ready, our Pools can be placed and installed within a day.

### Initial designs

Following your home visit, our expert will suggest the specifications and load-bearing capacity if the pool needs to be installed on a terrace, balcony, or backyard. The size and layout plan will be shared once the order is finalized. The quotation will be valid for 30 days from the date of issue. Customized sizes or designs will have a different quotation. You'll have the opportunity to give your input on exactly how you want your new pool to look; it can be customized based on your requirements, with the option to add extra features at an additional cost.

## Manufacturing Process

Our one-piece in-ground fiberglass swimming pools are constructed using only the most proven gel coats and high quality resins available. This, combined with an average thickness that exceeds industry standards, allows us to produce what we believe is one of the strongest and most reliable pools in the market.

### Fiberglass Pool Installation Process

**Step 1:** Ground excavation for accuracy, a design template in the exact size and shape of the pool you purchased will be used to lay out the placement of your fiberglass in-ground pool. A dig print, specific to your pool's design and shape, is used for the excavation. The hole is dug meticulously to avoid the need for back-fill and is compacted to prevent unwanted settling.

**Step 2:** Pool Installation Delivery of your fiberglass pool arrives at your home on a truck-trailer. Professionals will offload your pool from the trailer and lower it into place in the excavated hole after a compacted bed of gravel is prepared. Guide stakes, string lines, and laser levels ensure accurate placement and leveling during the in-ground pool installation.

**Step 3:** Fiberglass Pool Leveling After placing the pool on the gravel bed, the swimming pool installer will inspect the floor of the pool to ensure there are no voids or humps formed during placement. Water is then added to the pool simultaneously with the backfill. Continuous checking of the pool's levelness is critical.

**Step 4:** Fiberglass Pool plumbing while water and backfill are being added, the installer will connect the plumbing from the pool to the equipment pad location.

**Step 5:** Fiberglass Pool Deck Preparation after water and backfill have been completed, gravel is prepped for the surrounding pool deck. Typical decking includes concrete or pavers. Final leveling, shape adjustments, and bonding are done at this stage. (client scope)

**Step 6:** Fiberglass Pool coping At this point, the concrete decking, pavers, or a combination of the two are installed around the pool (client scope). The installer will also integrate accessories and features such as handrails, ladders, water sheers, and deck jets.

## BENEFITS OF FIBERGLASS SWIMMING POOLS:

**Quick Installation:** Fiberglass pools are pre-built and delivered to your location, making the installation process faster and more efficient compared to other pool types.

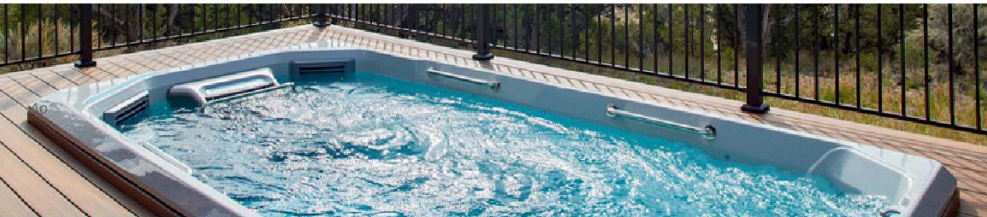

**Smooth Surface:** The gel-coated surface of fiberglass pools is not only visually appealing but also gentle on your skin, ensuring a comfortable swimming experience.

**Low Maintenance:** The non-porous surface of fiberglass pools resists algae and other contaminants, reducing maintenance efforts and chemical usage.

**Longevity:** Built with durable materials, and with the sandwiched technology, fiberglass pools can last for several decades with minimal repairs, providing a long-term investment for your home.

**Flexibility in Design:** While fiberglass pools come in pre-formed shapes, you can choose from a variety of shapes, sizes, and designs to complement your outdoor space.

**Comfortable Steps and Seats:** Fiberglass pools often come with built-in steps and seating areas, providing additional comfort and convenience for swimmers.

## Fiberglass Swimming Pools

Fiberglass swimming pools are a popular choice for many homeowners due to their durability, relatively quick installation process, and low maintenance requirements. Unlike traditional concrete pools, fiberglass pools are pre-formed and constructed off-site before being delivered to the installation location. This makes the installation process faster and less disruptive.

Fiberglass pools come in a variety of shapes, sizes, and designs to suit different preferences and backyard space. It is made with multiple layers of CSM & resin, which provide strength and structural integrity. The smooth surface of fiberglass pools is also resistant to algae growth, reducing the need for frequent cleaning and maintenance.

Overall, fiberglass swimming pools offer a convenient and attractive option for homeowners looking to add a pool to their property.

**The Presidential 30 feet x 12 feet x 4 feet Pool is a larger pool primarily designed for outdoor use. Here are some features and benefits of this pool:**

### **Outdoor Focus:**

The larger size makes it suitable for spacious outdoor areas such as backyard gardens, resorts, or community recreational centers. It provides ample space for swimming, family gatherings, and social events. It enhances the aesthetic appeal of outdoor landscapes with its grand design and luxurious appearance.

### **Fitness and Recreation:**

Provides a versatile space for fitness and recreational activities such as lap swimming, water aerobics, and pool games. It is suitable for hosting swimming competitions, aquatic events, and fitness classes. Offers opportunities for individuals of all ages to stay active and healthy while enjoying the outdoors.

### **Leisure and Relaxation:**

Offers a relaxing retreat for homeowners and guests to enjoy outdoor leisure activities, ideal for cooling off during hot summer days and creating memorable experiences with friends and family. It can be complemented with additional features such as waterfalls, lighting, and seating areas to create a resort-like ambiance.

### **Customization Options:**

Can be customized with various add-ons such as heating systems, water features, and pool covers to personalize their outdoor oasis according to their preferences and lifestyle needs. Overall, the Presidential pools is a luxurious and spacious option for outdoor environments, offering a perfect blend of relaxation, recreation, and entertainment for homeowners and guests alike.

**SPORTZ OUR 16 feet x 8 feet x 4 feet readymade swimming pool can serve various purposes for indoor, outdoor, and athletes:**

### **Indoor Use:**

It can be installed in indoor spaces such as basements, garages, or dedicated pool rooms, providing a convenient option for swimming and aquatic exercise regardless of weather conditions. Suitable for residential use, especially in homes with limited outdoor space.

### **Outdoor Use:**

Ideal for small outdoor spaces like backyards, patios, or rooftops, it offers a refreshing option for leisure swimming and relaxation during hot weather. It can enhance the aesthetic appeal of outdoor areas with landscaping and lighting features.

### **Athletes:**

Athletes, particularly swimmers, can utilize the pool for training purposes. It provides a compact yet functional space for swim drills, lap swimming, and endurance training. Athletes can work on stroke technique, speed, and stamina in a controlled environment. Coaches and trainers can closely monitor athletes for performance improvement and injury prevention. Overall, the SPORTZ offers versatility and convenience for various users, whether for recreational use at home, athlete training, or as an amenity for indoor or outdoor facilities.

The Luxe 22 feet x 9 feet x 4 feet ready-made swimming pool with loop technology offers several benefits for rooftops, outdoor spaces, and athletes:

### **Rooftop Use:**

Its compact size and innovative loop technology make it suitable for rooftop installation, providing a luxurious amenity for rooftop lounging and entertainment. It offers a refreshing escape with panoramic views while enjoying a swim.

### **Outdoor Use:**

Perfect for outdoor settings such as gardens, patios, or terraces, it enhances outdoor living spaces with a stylish and functional water feature. It allows for year-round enjoyment of swimming and relaxation in any weather condition.

### **Athletes:**

Athletes can utilize the pool's loop technology for swim training in a confined space. The loop technology creates a current that allows swimmers to swim in one place, making it ideal for refining stroke technique, endurance training, and interval workouts. It offers a convenient alternative to traditional lap swimming for athletes with limited space or access to larger pools. Coaches and trainers can customize swim workouts and closely monitor athletes' progress and performance. Overall, the Luxe swimming pool with loop technology combines functionality, versatility, and luxury, making it suitable for rooftop, outdoor, and athletic use. Whether for leisure or training purposes, this pool provides an exceptional swimming experience.

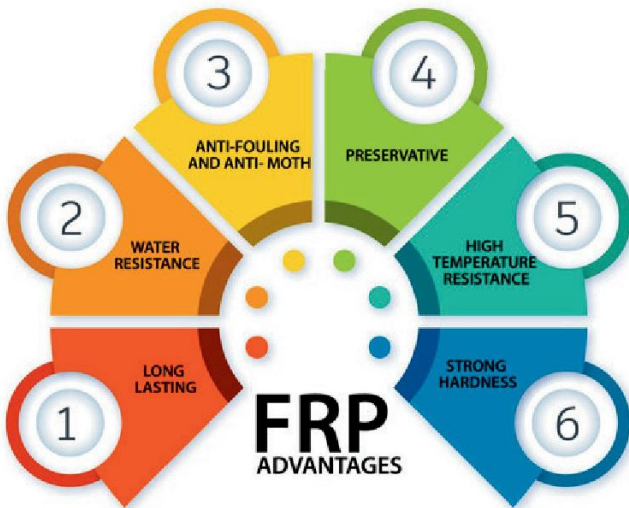

The addition of Loop Technology to Luxe enhances its versatility and functionality.

## SWIMMING POOL PUMPS

BWSP0300/0400/0550  
Single-stage centrifugal pumps  
Connection Size: 75MM

### MATERIALS:

- Pump body suction and discharge mountings in polypropylene.
- Motor shaft in stainless steel AISI-304.
- Impeller in PPO.
- Mechanical seal in SiC-SiC.
- Motor housing in aluminum L-2521.

These adjustments ensure each component is clearly identified and structured properly.

### MOTORS:

Asynchronous, two poles. IP55 protection. Class F insulation. Designed for continuous operation.
